Converga - Innovators in business

What we do and how we do it

Converga has a range of office and business solutions which use imaging, data capture, document management and workflow technologies to provide clients with real competitive advantage. We specialise in Information Logistics and Business Process Outsourcing, and in order to provide our customers with effective solutions, we leverage our experience, processes, people, technology and partners to deliver innovation, exceptional customer service and cost savings.

Let us take you on a journey of innovation

We've already led some of the world's largest organisations along a path of innovation. The journey will allow you to gain strategic advantages, ongoing cost savings and world-class best practice capabilities.

Why take the journey with us?

Converga offers customised, efficient, and cost effective solutions, saving you time and money which enables you to focus on your core business functions. Our solutions employ state of the art software and hardware, delivering unsurpassed automated processes. Our goal is to deliver higher levels of service (more cost effectively) than you could provide in-house.

Who we are

Converga is a 100% owned subsidiary of New Zealand Post. When Converga began operations in 1994, the company was best known as a provider of mailroom services. As the demand for Information Management services increased we emerged as a specialist in Business Process Outsourcing with a particular focus on automation.
